

Québec's Second Religion?

Try This:

- Keep open the interactive map "Religious Adherence, 1921."
- Click on the "Zoom to" drop-down menu and select "Southern Québec".
- Under LAYER CONTROLS, turn on the checkbox for "2nd most common religion."

Notice ...

- In most of Québec in 1921 the second most common religion after Roman Catholicism was held by less than ten per cent of the population.

Consider!

- The St Lawrence River valley in 1921 was an intensely homogeneous area when it came to religion.
- The presence of Presbyterians and Anglicans along Québec's American border may be a sign of adjacent New England roots.
